SUBJECT: FY 2000 IHS and Tribal Hospitals Inpatient Statistics and Comparison with FY 1999

During FY 2000 inpatient workload measures at IHS hospitals generally decreased compared to FY 1999, while such workload measures at tribally operated hospitals increased during the same time period. A portion of this change resulted from the shifting of the Alaska Native Medical Center (ANMC) from IHS to tribal operation on January 1, 1999, the baseline year used for comparison. FY 2000 was the first complete year that the ANMC was tribally operated.

The aggregated data shown in Tables 1 and 2 should be viewed with caution, because of incomplete reporting from several facilities. The facilities with incomplete reporting are identified by a footnote in the attached detailed tables for IHS and tribal hospitals.

Table 1. IHS HOSPITAL STATISTICS, FY 2000 AND FY 1999

IHS HOSPITALS				Change from FY 1999
